

Dear Parents and Carers,

This term your child will need to choose two projects which are from different sections. The final date to hand in the project work is **Monday 19th February 2018**.

The children will have a celebration day when they share the projects they have completed at home with your help. If you have any questions, please ask your child's class teacher.

Thank you

Y3 Team

PROJECT 1

- Design a leaflet about the different types of magnets.
- Write a short story about a day in the life of a magnet.

PROJECT 2

- Draw the forces you find around you.
- Draw, label and explain the effects of magnets on objects around us.

Project Passport

QUENCHING MY THIRST FOR KNOWLEDGE

PROJECT 3

- Design and make a magnetic game.
- Write instructions on how to make your own magnetic game.

PROJECT 4

- Make a graph showing the number of paperclips different types of magnets attract.
- Create a short presentation about gravity.

PROJECT 5

- Find out where and how magnets were discovered.
- Is gravity a force? How do you know?
